SUMMARY

Enthusiastic and detail-oriented student web developer with a passion for problem-solving and continuous learning. Seeking an entry-level role where I can contribute to innovative projects and grow as a developer/technologist in a collaborative team environment.

PROJECTS

Smart Jeepney Routing System

- Routing system with map tracking for the modernized jeepneys.
- Developed a real-time routing app that allow users to view and plan jeepney routes easily, enhancing commuter experience by providing clear navigation and route information.
